ABOUT ME

I am a dedicated graduate student studying computer engineering at the Polytechnic University of Turin, where I am currently pursuing a master's degree in cybersecurity engineering. I have participated in numerous seminars focused on cybersecurity and I have developed a strong interest in the associated laws and regulations. My goal is to become a Chief Information Security Officer (CISO) in the future.

EDUCATION AND TRAINING

09/2020 – 09/2024 Torino, Italy

Bachelor's Degree Politecnico di Torino

Website <https://www.polito.it> | Field of study Computer Engineering |

Level in EQF EQF level 6

09/2024 – CURRENT Torino, Italy

Master Degree Politecnico di Torino

Website <https://www.polito.it> | Field of study Cybersecurity Engineering |

Level in EQF EQF level 7

WORK EXPERIENCE

Microlab Giaveno, Italy

ICT technician

01/06/2019 – 01/09/2019

During this experience, I had the opportunity to observe the work environment and acquire fundamental skills in the IT field. I was particularly involved in hardware repairs and maintenance, carrying out hands-on interventions to ensure devices operated correctly and efficiently. I also gained experience in software configuration and system updates, personally managing the installation and setup of devices from scratch. This allowed me to strengthen my practical problem-solving abilities while directly interacting with customers, enhancing both my technical expertise and communication skills.

ACS Service Ferriera, Italy

Junior Systems Engineer

01/04/2024 – 01/09/2024

During this work experience, I developed solid expertise in system administration, managing core activities ranging from daily operations to the implementation of security procedures and maintenance tasks. I also gained strong proficiency in network management and troubleshooting, working collaboratively with colleagues to identify and resolve technical issues related to connectivity and network infrastructure.

My responsibilities further included server mapping and maintenance, ensuring the proper functioning of resources and contributing to the maintenance of high standards of efficiency and reliability across company systems. Completing this experience is my advanced knowledge of the Matrix42 platform, which I used on a daily basis to streamline and optimize the management and distribution of IT services.

LANGUAGE SKILLS

MOTHER TONGUE(S): Italian

Other language(s):

English

Listening B2

Spoken production B2

Reading B2

Spoken interaction B2

Writing B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

securities | interact verbally in English | understand spoken English | computer technology | troubleshoot | write English | define firewall rules | understand written English | security regulations | Following IT security best practices | security threats | robotics | Jetson Nano, Raspberry Pi, Arduino and FPGA | Programming in modern programming languages | Kali Linux | Wired and wireless LAN | ICT networking hardware | web application security threats | Web design and web applications | ICT encryption | quantum technology
